

Open Data Festival

Warmly welcome to our community event dedicated to open sharing of geospatial data! In this open data festival you will learn how to curate and share digital geospatial data sets to UTU Geonode or join an OpenStreetMap mapathon to improve service information data of Southwest Finland or humanitarian data of Nepal. The table is set with snacks!

Participants are encouraged to bring their own laptop and a mouse (editing OSM without a mouse is a bit clumsy).

Name: Open Data Festival

Date: 13.12.2024 at 12-15

Place: University of Turku, Natura building, 4th floor (Geography), map link:

<https://maps.app.goo.gl/2z6KzBa5bDNtLLNs9>
